

**MAIN CONTENTS**

The metallogenesis and genetic mechanism of the carbonatite-alkaline rock associated niobium and rare earth element deposits <i>CHEN Wei, YING Yuan-can, LIU Jia-jun, YANG Fan, JIANG Shao-yong</i> .....	1
Research progresses and main scientific issues of strategically critical minerals in black rock series <i>WEN Han-jie, ZHOU Zheng-bing, MA Wan-ping, ZHU Yu</i> .....	14
A primary study on the current status and mineralization regularities of associated Te and Se resources in porphyry-skarn Cu polymetallic deposits in the Middle-Lower Yangtze River Valley metallogenic belt, China <i>XIE Gui-qing, WU Xiao-lin, LI Xin-hao, ZHU Qiao-qiao, GAO Ren</i> .....	35
Advance and prospect of researches on the mineralization of critical elements in coal-bearing sequences <i>DAI Shi-feng, ZHAO Lei, WANG Ning, WEI Qiang, LIU Jing-jing</i> .....	49
Geological characteristics and genetic mechanism of the lacustrine sedimentary clay type lithium deposit <i>WANG Wei, JIANG Shao-Yong, GE Wen, ZHANG Qi-dao, LIU Tong, ZHANG Xing-kai</i> .....	64
Enrichment and mineralization of rare earth elements in deep-sea sediments <i>FU Yu, SUN Xiao-ming, LI Deng-feng, LI Zheng-kun, PENG Jin-zhou, HUANG Fei, LIANG Yong-jia, TANG Ya-yue, WANG Rui</i> .....	79
Current status and prospect of researches on sediment-hosted Li deposits in bauxite formations and coal-bearing strata in China <i>ZHANG Qi-dao, JIANG Shao-yong, WANG Wei, GE Wen</i> .....	90
The main genetic types and metallogenic potential of hard-rock rubidium deposits in Xinjiang <i>TANG Guo-qing, WU Chang-zhi</i> .....	102
Metallogenic characteristics and enrichment mechanism of cobalt deposits in the Central African Cu-Co metallogenic belt <i>MO Jiang-ping, HU Qiao-fan, FANG Ke, LIU Wei, ZHOU Shou-yu, LI Ming-jun</i> .....	127
Effect of high-impedance amplifier calibration drift on isotope measurement by MC-ICP-MS –An example of mercury isotope analysis <i>LI Peng-fei, ZHENG Wang, MENG Xu-nan, ZHANG Li-xin, SUN Ruo-yu, CHEN Jiu-bin</i> .....	140
The existence of the ca. 860 Ma concealed granite in the central Jiangnan Orogen: Evidence from the xenocrysts in lamproite at Yunyingwo, Ningxiang, Hunan Province <i>WANG Kun, ZHANG Jia-wei, XIANG Hua, XIANG Lu, QIU Yuan, LI Shuai, LIU Wei-peng, Zhu Yu-hua</i> .....	151
Genesis of geothermal water in the Da Qaidam area, northern margin of the Qaidam Basin: Constraints from hydrochemistry and isotopes of hydrogen-oxygen-strontium <i>WANG Bing, QIN Xi-wei, REN Er-feng, JIANG Zi-wen, FENG Ning, LI Guo-rong, YANG Sha, LI Wei</i> .....	167
Characteristics and evolution of the ore-forming fluid in the Yinzishan gold polymetallic deposit, Simao, Yunnan, China <i>ZHOU Qi, PENG Hui-juan, ZHANG Yun-long, LUO Ze-xiong, HUANG Mao-kun, MAO Xing-xing, CHEN Xi</i> .....	178
The Re-Os isotopic dating of molybdenite from the Shimensi tungsten-copper polymetallic deposit in the northern Jiangxi and its geological significance <i>LIU Geng-geng, WU Ying-chen, WEI Wen-feng, YAN Bing, ZOU Zhi-chao</i> .....	192
Ontology construction of multi-level ore deposit and its application in knowledge graph <i>ZHANG Qian-long, ZHOU Yong-zhang, YU Peng-peng, WANG Han-yu, HAN Feng, HE Ju-xiang</i> .....	211
Resources of Co, Ga and Sc of V-Ti magnetite deposits in the Panxi area within the Emeishan Large Igneous Province and their integrated utilization potentials <i>Song Xie-yan, She Yu-wei, Luan Yan, He Hai-long, Zhang Qi-long, Zheng Wen-qin</i> .....	218
Researches on the abiogenic condensed carbonaceous matter in the serpentinization environment <i>TONG Hong-peng, ZHANG Shen, CHEN Lin-ying, TAN Wen-xi, CHEN Duo-fu</i> .....	232
A review of researches on the mineral dissolution and reprecipitation process <i>LI Fu-jie, QI You-qiang, GONG Hao-tian</i> .....	240
