

MAIN CONTENTS

Controlling factors on the formation of porphyry-skarn Mo deposits <i>OUYANG He-gen</i>	271
The origin of anisotropic structure of the Earth's inner core from mineralogical model to dynamic mechanism <i>HE Yu, SUN Shi-chuan, XU Yun-fan, LI He-ping</i>	282
Progresses of studies on the genesis of Fe-Ti oxide deposits in the Emeishan Large Igneous Province <i>BAI Zhong-jie, ZHONG Hong, ZHU Wei-guang</i>	292
The source and sink process and its geological driving factors of shale organic matter in the Qingshankou Formation, Songliao Basin <i>WANG Hua-jian, LIU Yu-ke, WANG Xiao-mei, LIU Zhen-wu, LYU Dan, ZHANG Shui-chang</i>	306
The transition from crystal to superionic phases for the pyrite-type (Fe,Mg)O ₂ H <i>HU Qing-yang, BAI Cheng-he</i>	319
Genesis of the Baping quartz deposit in the western Guangxi: Evidences from fluid inclusions, C-H-O isotopes and rare earth elements <i>HE Li-jia, RUAN Qing-feng, QIU Zhi-hui, CHENG Shi-bo, ZHOU Zi-han</i>	326
A first look at the concept and application of multimodal large models for lunar and planetary science <i>LEI Dan-hong, LIU Jian-zhong, ZHU Ka, LIU Jing-wen, REN Man, ZHANG Sheng, ZHANG Li</i>	343
Occurrence and enrichment mechanism of silver in the Tieluping Ag-Pb deposit in the western Henan, China <i>XU Jin-hong, WU Cheng-quan, ZHANG Zheng-wei, JIANG Yu-ping, HU Shu-li, ZHENG Chao-fei, LI Xi-yao, JIN Zi-ru</i>	352
Typomorphic characteristics and geological significance of pyrite from No. 1 deposit in the Xiongkun district, Tibet <i>WU Chang-yi, LANG Xing-hai, ZHANG He, WANG Xu-hui, ZHANG Peng, DENG Yu-lin, LOU Yu-ming, JIANG Kai</i>	372
Mineral chemical characteristics of sphalerites from the Tongshanling Cu-Pb-Zn deposit in southern Hunan and their metallogenic implications <i>HUANG Xu-dong, LU Jian-jun, GAO Jian-feng, ZHANG Rong-qing, Stanislas SIZARET, MA Dong-sheng, WANG Ru-cheng</i>	387
Stable carbon isotope characterization and the source of total carbon in Guangzhou PM _{2.5} <i>ZHAI yuan, XIAO Hong-wei, ZHU Ren-guo, XIAO Yang-ning, MA Yan</i>	403
Synthesis of multi-element fluid inclusion standards suitable for the LA-ICP-MS analysis and establishment of the femtosecond laser analytical method <i>JIANG Zi-qi, LAN Ting-guang, GUO Hai-hao, SHANG Lin-bo, WANG Xin-song, TANG Yan-wen</i>	409
A preliminary study on the evolution and ecology of arsenic minerals <i>TANG Ming-hao, TENG hui, LU Xian-cai, WANG Ru-cheng, ZHU Xiang-yu</i>	418
Genetic mineralogical study of zircons in dikes in the Jiuling gold deposit of the central Taihang Mountains <i>ZHANG Ju-quan, CHEN Chao, LU Jing, ZHANG Fu-xiang, GUO Hai-quan, ZHANG Tong, ZHANG Cai-long, FAN Qi-chao, XING Huan</i>	428
Research on three-dimensional mineral prospectivity modeling by integrating numerical simulation of the ore-forming process: A case study in the Chating area of Xuancheng, Anhui Province, China <i>XIE Xian-gang, LI Xiao-hui, YUAN Feng, YE Sheng-fei, CHEN Yu-heng</i>	446
