In the original publication, the Fig. 13 has been published incorrectly. The correct Fig. 13 is given below.

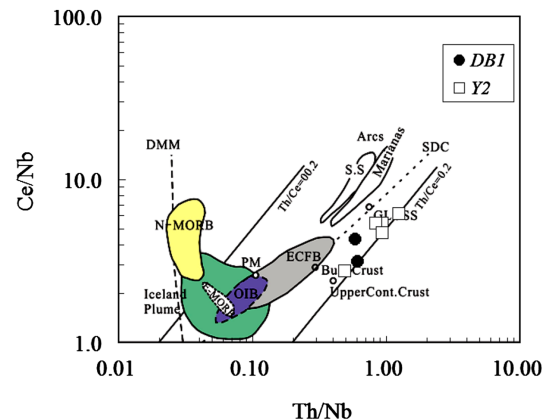

Fig. 13 Ce/Nb-Th/Nb diagram for Carboniferous volcanic rocks from Wulungu-Luliang area (after Song et al. 2004). *DMM* depleted mantle, *SDC* recycled subduction-derived component, *S.S.* subducting sediments in arcs, *RSC* recycled residual slab composition, *OIB* ocean-island basalt, *N-MORB* normal mid-ocean ridge basalt, *E-MORB* enriched MORB, *PM* primitive mantle

The online version of the original article can be found under doi:10.1007/s11631-015-0069-z.
