

MAIN CONTENTS

Adsorption of Methylene blue on sodium stearate modified montmorillonite
CHEN Dai-mei, CHEN Jian, LUAN Xin-long, JI Hai-peng, XU Feng, LIAO Li-bing 123

Gas geochemical and tectonic characteristics of ganda village at the Ms 7.1 earthquake zone of Yushu
*LIU Lei, DU Jian-guo, FU Bi-hong, XIE Chao, DA Jie, ZHI Mei, ZHOU Xiao-cheng, CHEN Zhi, SHI Pi-long,
CUI Yue-jü, LI Jing* 129

Antimony pollution and sulfur isotope study in the waters of an antimony mine area
NING Zeng-ping, XIAO Tang-fu, YANG Fei, JIA Yan-long, SUN Jia-long, HE Li-bin 135

Occurrence of PGE in the polymetallic layer of black shales, Zunyi, Guizhou, China
HAN Tao, ZHU Xiao-qing, CHEN Nan-sheng 142

Mineral composition characteristics of natural atmospheric dusts in Beijing and the northern areas to Beijing
TANG Yang, HAN Gui-lin, XU Zhi-fang 150

Characteristics research on resistivity of gold-bearing pyrite in the Linglong gold deposit
HU Chuan-sheng, LUO Jian-hong, WANG Peng, CHE Lin-rui, ZHANG Chun-zhi, YIN Na 156

Geochemical characteristics of the siliceous rock in the upper Sinian Denying formation in the eastern Chongqing, China
MA Wen-xin, LIU Shu-gen, CHEN Cui-hua, HUANG Wen-ming, ZHANG Chang-jun, SONG Guang-yong 160

Researches on the quantitative calculation of uranium origin and the lead isotope compositions of precambrian terrains
in the Anshan-Benxi area
HAN Jun, LI Lin-qiang, LI Yue-xiang, XIA Yu-liang 172

Research on the characteristics of thorium minerals in the Julongan deposit, Xiangshan ore field
MENG Yan-ning, FAN Hong-hai, SUN Zhi-fu, CHEN Zhang-ru 180

Global distribution and research progress of mud volcanoes
HUANG Hua-gu, DI Peng-fei, CHEN Duo-fu 189

Research progress on the oxygen isotope composition of cellulose from lacustrine sediments
ZHU Zheng-jie, REN Shi-cong, LI Hang, LI Yan-jun, CHEN Jing-an 198

Constrains of heat transfer in pluton growth and corresponding magma melting effects
BAI Jun-hao, ZHU Dan, HUANG Zhi-long 204

Lunar late heavy bombardment and nice model
CHEN Feng, WANG Shi-jie 210

Research summary of water-rock interactions in igneous reservoirs
LIANG Ming-liang, MAO Xiu-ling, ZHENG Guo-dong, LUO Xiao-rong, LI Zhong 215

Study on metallogenic systems and geochemistry methodology of MVT lead-zinc deposits
ZHOU Ling-jie, ZHANG Zheng-wei, ZHANG Zhong-shan, YOU Fu-hua 223

The geological characteristics of the south pole-Aitken basin on the moon: The window to explore the deep composition
of the moon
ZHANG Jian, MIAO Bing-kui, LIAO Qing-yuan, JING Yuan, WANG Hui 234
